

STICK MAY BE BROUGHT OUT.

President Is Expected to Support Aldrich Bill.

Party Whip Is Likely to Re-sound in House.

Members Divided as to Necessity of Legislation.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 17.—[Exclusive Dispatch.] It is becoming apparent to Republican leaders of the House that when the proper time arrives President Roosevelt is likely to appear in some form as a supporter of the Aldrich currency bill.

That such an event will result in a resounding crack of the party whip in the House is the prediction of men who are opposed to that measure. Whether or not the Aldrich bill finally passes the House, depends, they say, upon the extent of the support of the Speaker and the House Rules Committee to the measure.

At present not twenty members of the House openly favor the Aldrich bill as it stands. Unless the President himself assumes responsibility for it, say the leaders, they will not force the House to accept it. A majority of the members of the House do not believe financial legislation is now necessary, for the reason that the currency phase of the present panic is over. In their opinion they declare that the Aldrich bill, which is an emergency measure, will reap some glory from a natural righting of present conditions, which it will not deserve, and that to this extent it might be good politics for the Republicans to pass it at this season.

On the other hand, many Republicans in the House believe that another panic would only make matters worse with the Aldrich bill a law, and they hesitate to enact it for this reason.

SERIES OF CONFERENCES.
TRYING TO GET TOGETHER.

[BY THE ASSOCIATED PRESS.—P.M.]

WASHINGTON, Feb. 17.—The Republican members of the Committee on Banking and Currency entered today on a series of conferences by which it is hoped to reach agreement regarding the recommendation to the House of a currency bill at this season.

A feeling exists among the members that the currency phase of the present panic is over. In their opinion they declare that the Aldrich bill, which is an emergency measure, will reap some glory from a natural righting of present conditions, which it will not deserve, and that to this extent it might be good politics for the Republicans to pass it at this season.

EX-PRESIDENT IN INTERNATIONAL PEACE MOVE.

Former President of the United States, from his most recent photograph.

Grover Cleveland.

The New Jersey statesman has aged sadly in the last twelve months, during which period his poor health has often caused his friends and family keen alarm.

NEW YORK, Feb. 17.—[Exclusive Dispatch.] With the object of promoting and fostering international peace, a remarkable movement was launched at Stamford, Conn., today by Wilson L. Gill L.L.D., president of the American Patriotic League, in which President Roosevelt, former President Cleveland and many other prominent men are interested.

ed on here today for what is known as the Aldrich bill. His condition is critical tonight.

Fisk's Nomination Confirmed.

WASHINGTON, Feb. 17.—The Senate today confirmed the nomination of Arthur G. Fisk to be postmaster at San Francisco.

Nominates Granfield.

WASHINGTON, Feb. 17.—The President today nominated Charles P. Granfield, of Missouri, to be first assistant postmaster-general.

AID FORTHCOMING.

DEFENSE FUND IS PROMISED.

LARGE SUM PLEDGED TO HELP RAYMOND HITCHCOCK.

Sixteen Wealthy Men to Contribute One Thousand Dollars Each. Provided Investigation Shows Actor Victim of Conspiracy, as He Claims. Attorney Now Looking into Case.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 17.—[Exclusive Dispatch.] A fund of \$16,000 will be contributed for the defense of Raymond Hitchcock, the actor, by sixteen wealthy men, if former Asst. Dist. Atty. Henry G. Gray reports to them before the trial, which is set for February 24, that there is every reason to believe that Hitchcock is the victim of a conspiracy, as he claims.

Mr. Gray said today that he would have his report ready to submit in a few days. He would not reveal the names of any of the sixteen men who will rally to the actor's defense, if assured that he is innocent of the charges brought against him by the several young girls.

All he would say was that the men were all friends of Hitchcock, and would do everything in their power to aid him in his defense. He said that these men, some of whom are described as millionaires, met in a Broadway hotel last week, and pledged \$1,000 each for the Hitchcock defense fund. They made the subscription conditional upon the report of Mr. Gray, whom they engaged to make a careful study of the case.

NERVY.

PECULIAR DEAL NETS BIG SUM.

MAKE \$126,000 WITHOUT INVESTING A CENT.

By Putting Up Worthless Check, a Boston Brokerage Firm Secures Four Million Dollars' Worth of New York City Bonds, Upon Which They Realize a Fortune.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON (Mass.) Feb. 17.—[Exclusive Dispatch.] The monumental nerve that enabled them to bluff through a \$4,000,000 bond deal without the use of a cent, has brought a fortune of \$126,000 to two stockbrokers, who came here a year ago from New Orleans, where they ran a small brokerage office as W. A. Baldwin & Co.

The two men are W. A. Baldwin and his brother, Charles. When the \$50,000 worth of New York bonds were advertised for sale a few weeks ago, the two men put in bid for a little over \$4,000,000 worth of them, the price being a fraction of a point higher than the bid made by the Morgan syndicate. With the bid they sent a check for \$185,000, 2 per cent. of the purchase price, although as Charles Baldwin admitted today, they did not have enough in the bank to pay the fee. But their figures were the highest. If their check was good, New York must sell them the bonds.

Today the Controller of New York sent the check over for collection. In the meantime the bonds were selling in Wall street for over 167, and the Baldwin brothers had no trouble arranging with a bank to take care of the check. Incidentally, the bank made them an offer which they have accepted, which gives them just \$126,000 to turn over their bonds.

DARROW RETURNS HOME.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Feb. 17.—[Exclusive Dispatch.] Clarence Darrow, the attorney, who was physically prostrated by the trial of the Bremer kidnapers, returned to his home in Chicago this afternoon from Los Angeles, and went at once to the home of his sister, Mrs. Moore. He expressed confidence of a speedy return to normal strength.

OPPOSE FRESH-AIR HOME.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Feb. 17.—[Exclusive Dispatch.] War to the knife has been declared between two factions of the inhabitants of the South Shore of Lake Michigan, who are planning to make it a sort of "fresh-air" settlement for poor children. While they are not opposed to the idea of making future citizens of these countries better acquainted, it is proposed, first, to try the experiment with the school children of the United States and Japan.

BRITAIN'S NAVY.

PROGRAMME OF THE ADMIRALTY.

MAY CONSTRUCT THREE MORE DRAGNAUGHTS.

Two Improved Cruisers, With Great Radius of Action, and at Least Twelve Torpedo Boats Also Probable—Does Not Answer Germany's Programme.

[BY THE ASSOCIATED PRESS.—A.M.]

LONDON, Feb. 17.—In view of the threatening attitude of that section of the radical party which advocated a reduction in armament, there had been much speculation as to whether the government will persist in the determination reached on the advice of the lords of the admiralty to submit increased naval estimates to Parliament. Those in position to know, say they are, and backed by strong public opinion, will be able to carry them through without difficulty. What they estimate provide for in the way of new construction is another question that has been much discussed. A naval officer, who, while not admitting the possession of any inside information, is very well informed, gives this as the probable programme:

Three armored vessels on the improved draught type; ships that will embody many changes developed after the thorough trials which the first of this class has passed. Two cruisers, of 3,500 tons, with a radius of action of 10,000 miles, and a speed of 20 knots, enabling them to remain at sea for long periods when engaged, as parent ships, in the case of a sudden emergency, or to operate as scouts or dispatch vessels.

Twelve torpedo boats, of which two, the Torpedo and Chippa, are now under trial with much success. There also will be provision for additional submarines, but of these the admiralty maintains the greatest secrecy.

This is not looked upon as a complete answer to Germany's programme. That, naval men say, will come next year, when the critics of the policy of the admiralty admitting that the start England has secured will enable her to maintain the two-power standard without rushing work during the coming fiscal year. Besides, the delay of twelve months will allow her to learn something of what other powers are doing, and then "go them one better," either by outbuilding them or designing a ship that will be a great improvement on those now being constructed.

Germany's "usual" to agree at The Hague to proposals to prohibit the possession of any inside information, is very well informed, gives this as the probable programme:

TAKING AND FORT AS THE TICKET

Governor of New Jersey for Second Place.

This Suggestion Comes Out of the East.

No Promises Made as to the Vice-Presidency.

BY DIRECT WIRE TO THE TIMES. CHICAGO, Feb. 17.—[Exclusive.]

Taft and Fort, such is the latest suggestion for the Republican Presidential ticket. No slate has been made as yet. The suggestion is that Taft and Fort be put on the ticket. Taft is almost a sure winner. Fort is naturally more or less a compromise candidate. The suggestion is that Taft and Fort be put on the ticket. Taft is almost a sure winner. Fort is naturally more or less a compromise candidate. The suggestion is that Taft and Fort be put on the ticket. Taft is almost a sure winner. Fort is naturally more or less a compromise candidate.

What they have done, and what they are doing, is to hold out hope to the friends of Taft and Fort. The suggestion is that Taft and Fort be put on the ticket. Taft is almost a sure winner. Fort is naturally more or less a compromise candidate. The suggestion is that Taft and Fort be put on the ticket. Taft is almost a sure winner. Fort is naturally more or less a compromise candidate.

THEIR ACTION IS GRATIFYING.

Railroads Complying With New Laws.

One Line Inaugurates Nine-Hour System.

Commerce Commission Is Well Pleased.

BY THE ASSOCIATED PRESS.—P.M.]

WASHINGTON, Feb. 16.—Gratification is expressed by the Interstate Commerce Commission over two conditions that have arisen within the past day or two. In concrete form, they mean that American railroad officials, as a class, are doing all that lies in their power to meet situations that have developed under the new laws applying to interstate traffic.

Information has reached the commission that the Baltimore and Ohio Railroad has put into effect already throughout its system the so-called "nine-hour law," which by its terms does not become operative until March 4 next. The law limits the hours of service of all classes of train operatives, particularly engineers and firemen, train dispatchers, railroad telegraphers, tower men and signal operators.

Already the commission has set February 27 as a date on which it will hear applications for an extension of the time operation of the nine-hour provision. The time may be extended by railroads which are unable to conform to the law in time to effect the change.

However, the Baltimore and Ohio does not purpose to await the result of the hearing. As explained to the commission, the railroad officials of that system is to put the law into effect immediately in order that both officials and the operatives may become accustomed to the new conditions before they are made imperative by the act itself.

COMPLY WITH HEPBURN ACT.

Another source of gratification to the commission is the very general compliance of the railroads with the provision of the Hepburn act which makes it obligatory upon carriers to submit to the commission monthly reports covering every phase of the operation of the interstate roads. A few weeks ago it was announced in a tentative way that several important systems, notably the New York Central lines, had declined to furnish reports to the commission in accordance with the law and in conformity with the regulations and forms prescribed by the commission. It was held by the counsel for the New York Central lines, for instance, that that provision of the law was unconstitutional and it was understood to be the advice of the commission and the New York Central by which the road has filed with the commission complete reports of the operation for the five months ended November 30 last. The commission now has complete reports for five months of the railroad mileage of the country.

Reports for the month of December are coming in rapidly. It is expected, however, that by the first of March substantially complete reports from all of the roads of the United States for the six months ended January 1 will be in the hands of the commission.

AT NEW YORK HOTELS.

NEW YORK, Feb. 17.—[Exclusive Dispatch.] At the Washington, Miss H. Wyatt, Marie H. Curtis, William Kinsley, R. Patterson, Harold Square, J. W. Netherly, Hotel Astor, F. H. Griffith, Grand Union, T. F. Fahy, in San Francisco.

Work was resumed in the Desmet department of the Cambria Steel Company, at Johnstown, Pa., yesterday, giving work to 2000 men.

to the mining company of a credential from a public body, it is pointed out that the chamber's investigation is expected in an sense to complete with or to take the place of an engineer's report, the certificate of the chamber being a credential from an organization that is in the character and respect of nearly five hundred of the leading business men of Los Angeles.

The reports of mining engineers are of an entirely different nature, but they readily dovetail with and supplement the work of an engineer's report, the certificate of the chamber being a credential from an organization that is in the character and respect of nearly five hundred of the leading business men of Los Angeles.

SMELTER.

This question was agitated by the chamber during the early months of 1907, when a prominent engineer visited this city in the interest of the proposed smelter at tide-water. The matter, unfortunately, was dropped at that time.

CHAMBER OF MINES' FIRST ANNIVERSARY.

Banquet in Celebration Attended by Two Hundred Men—Smelter Project Indorsed by Prominent Speakers. Reports Show Good Work.

Nearly two hundred strong mining men of Los Angeles and the surrounding mining empire, met down to a banquet at Levy's last night in celebration of the first birthday of the Los Angeles Chamber of Mines, and it may truthfully be said that it constituted the most representative gathering of members of the mining industry ever assembled in the city.

In addition to a full representation of the principal industry, there was also a liberal attendance of oil operators, bankers, merchants and business men, who appeared to realize the importance of the mining business to the upbuilding of the city.

The affair took place in the large banquet hall at Levy's café, the room being decorated for the occasion with festoons of smilax running from the central dome to the walls of the room. An orchestra, dispensed popular airs during the dinner, which was simple but ample. The needs of the guests were looked after by a large corps of waiters, who filled every demand upon their services.

Supporting the toastmaster, Gen. John B. Matthews and master of ceremonies, were Fielding J. Stilson, William D. Stephens, Tim Spelly, A. J. Waters, C. M. Shannon, C. H. Plummer, L. Y. Root of Needles, William A. R. L. Boyle, O. E. Farish, Roy King, Calvert Wilson, H. B. Guthrey, Mayor A. C. Harper, and J. W. Netherly, A. B. Barrett and Fred A. Hines.

MAYOR EXTENDS WELCOME.

Mayor A. C. Harper made the first remarks of the evening. He laid stress upon the importance of fostering the mining industry in every legitimate way, and strongly advocated a series of excursions of business men to the surrounding mining camps as the nearest means of drawing the oil industry into closer touch with the city.

While Los Angeles is, and always must be, a great residential center, he expressed a belief that the city must reach out to obtain the fullest results from the great mineral resources at its doors. He paid a great tribute to Goldfield and its enormous production, and drew attention to the vast profit which has come to Los Angeles from that district. Touching upon the oil industry, he said that at least nine-tenths of the business from this great avenue of wealth was tributary to Los Angeles, and expressed a belief that similar results could be obtained from the mining fields of the great Southwest. If the merchants of this city would reach out to it as they have for the trade of oil men.

WILL HOLD REINS.

The chairman then introduced his successor in office, Fielding J. Stilson, who will hold the reins of the organization for the coming year. The speaker placed his best services at the disposal of the chamber and said that the first essential to a complete realization of this city's ambition to become the undisputed center of the Southwest must be the strengthening of the commercial bond between business men and miner. The onus of accomplishing such results must lie in great measure along industrial lines, in great measure along industrial lines, in great measure along industrial lines.

CHAMBERMAN'S REPORT.

The report of the retiring chairman covered the salient features of the life of the organization and gave some account of the necessities which called it into being. Fourteen months ago a few business men of the city met together and while Los Angeles then en-

joyed a limited trade with Arizona and New Mexico, the mining sections of Nevada were cut off almost completely by lack of railroad transportation, which resulted in commercial gain to Denver, Salt Lake and San Francisco, each of which was fighting hard for supremacy. Later the completion of the Salt Lake route and the extension of other roads gave Los Angeles a chance for successful competition and the sources of the country. In conclusion, the speaker expressed a belief that the membership would reach 200 during the present year and recommended that more commodious quarters be secured for the transaction of the chamber's business and the display of the mineral resources of the country.

SECRETARY'S REPORT.

The report of Secretary Arndt went into detail with regard to results accomplished by the chamber during the year and pointed out the results that had been obtained through its efforts along legislative lines culled at to improve the condition of the mining and oil-producing industries. A law committee of the chamber is now working upon a proposed revision and codification of the laws of this State, while the committee on Oil and Petroleum has been paying attention to a bill for the disposal of lands chiefly valuable for oil and asphaltum, which has now been introduced in Congress by the state's representative. The matter of the establishment of a Bureau of Mines has also commanded the energy of the organization together with the possibility of securing through a series of one of the testing and experimental stations provided for in the bill. Strenuous effort was made to waive the assessment requirement for the past year in the belief that such a course would be of great benefit to poor prospectors. The chamber also succeeded in securing the withdrawal from entry of sixteen townships in the Coalinga field. Touching on other matters undertaken by the chamber during the year, the report says:

PUBLICITY.

It is but fair to make mention in this report of the able co-operation the chamber has received on the part of the daily press of Los Angeles during the past year. The increased space given to the subjects of mining and oil by the daily papers has been the source of a favorable comment on the part of members and visitors.

INVESTIGATION—REGISTRATION.

The registration system inaugurated by the chamber was carefully thought out by practical mining and business men. That it has not been availed of more freely by those companies is perhaps partially due to the fact that it is not in personal contact with our officers and have received information with respect to the registration system are satisfied as to the wisdom of its provisions and restrictions, as well as with the manner in which it is intended to accomplish, viz.: the furnishing

of a limited trade with Arizona and New Mexico, the mining sections of Nevada were cut off almost completely by lack of railroad transportation, which resulted in commercial gain to Denver, Salt Lake and San Francisco, each of which was fighting hard for supremacy. Later the completion of the Salt Lake route and the extension of other roads gave Los Angeles a chance for successful competition and the sources of the country. In conclusion, the speaker expressed a belief that the membership would reach 200 during the present year and recommended that more commodious quarters be secured for the transaction of the chamber's business and the display of the mineral resources of the country.

PROSECUTION IMPEACHED.

Call the defendants to withdraw their

all the defendants to withdraw their pleas that an investigation might be instituted against any person who said that the District Attorney's office should not be represented by men suspected of improper conduct, or who had put witnesses in a "sweet box." But their honor postpones this trial, and the attorneys will be back again just what they have been working for, exclaimed Mr. Fredericks. "Of course they want other counsel substituted for these men who are thoroughly familiar with the cases involved. If they get other men to prosecute, they will be conversant with the facts, it will be very satisfactory to them, no doubt."

"I do not know personally about the matter complained of, but if these things have been done, I am certain that it is a very legitimate basis of action on our part. I do not know anything about the grand jury witnesses through a preliminary interrogation to find out if they know anything before we take them into the grand jury room. That they could never have time to do these things before we take them to the business of this court. These are the officers of this court for whom we are not witnesses for the people. We do not stand in the position of private individuals. We have a right to issue subpoenas and question witnesses and for what they take the responsibility for what my assistants have done."

"Traction is bound to arise in this case, because of personal feeling by counsel for the defense toward those two men," said E. A. McSwain. "At the least I would suggest that the District Attorney conduct this case himself, with Messrs. Shaw and Horton as advisers, if necessary."

"If your officers brought these witnesses here under a grand jury process when the grand jury was not in session," Mr. McSwain said, "Judge Conroy will not assume the correctness of the grand jury process," Henry McSwain said. Shaw and Horton will be proceeded with this case, which will begin this afternoon. But I will set next Monday morning at 9 o'clock as the first day of the trial.

At the afternoon session a jury was selected and evidence will be presented this morning. The jurors are: B. Baruch of No. 1407 South Figueroa street; W. S. Erving, of No. 2806 North Sichel street; T. L. Gooch of Rivera, T. J. Green of Spadra, D. D. Johnston of Norwalk, E. A. Mass of Alhambra, J. M. Miller of No. 1623 West Twelfth street, G. W. Ogle of Pomona, C. Rehrman of Monrovia, S. M. Sevier of Monrovia, D. M. Sutherland of No. 2250

West fourteenth street, and Frank Wilde of No. 212 East Adams street. Five peremptory challenges were exercised by the defense and four by the prosecution.

James Alexander Brown, E. J. Shelley, and W. H. Hazard, the last three men indicted by the grand jury in the Ocean Park matter, entered pleas of not guilty yesterday, and the date for their trials will be set Thursday morning.

**HIGGINS WILL CASE.
DEMURRERS OVERRULED.**
Judge Rives in the Probate Court yesterday made his decision in regard to the demurrers filed by the defendants against the contest of and petition to revoke the probate of the last will and testament of the late Hiram Higgins. Hunsaker & Britt had filed a demurrer in behalf of

These demurrers were argued last week upon the ground that the complaint does not separate the various causes of action, and that as a whole it does not set forth sufficient grounds to constitute a cause of action. Judge Rives overruled the demurrers, and granted the defendants ten days to

The complaint is in support of an action brought by Mrs. Emma C. Higgins, widow of Hiram Higgins, and by William R. Higgins, his son, to break the will made by Mr. Higgins some time before his death.

SUIT DISMISSED.
VERNON TRUSTEES CASE.
Holding that ouster proceedings

brought against city officials under Section 773 of the Penal Code cannot be instituted by an individual but must be brought in the name of the people. Judge James yesterday handed down a decision adverse to Robert Broome in his suit to have the Vernon Trustees removed from office for alleged failure to perform their duties. The suit was ordered dismissed.

The judge did not pass on points raised by the Trustees and

Broome's complaint, which, he stated, was "imperfectly brought," and if the action is further prosecuted, it must be by a new complaint properly entered in the name of the people. Broome and his attorneys did not state yesterday whether they would take further action in the matter.

**COUNTY HOSPITAL WORK.
SUPERVISORS MAKE AWARD.**

Bids for supplying 500 barrels or less of cement for work at the County Hospital were opened by the Supervisors yesterday and the bid of the Los Angeles Storage Commission and Lumbe Company, at \$2.35 a barrel, was accepted. Seven local firms competed, at prices ranging from \$2.35 to \$3.55 a barrel.

Miss Helen Fletcher, of No. 108 North Johnson street, was appointed stenog-

grapher and index clerk to the board. The Mercereau company was authorized to build a bridge on Central avenue over the Verduga wash. The Ingleswood School District, on petition of the residents, was added to the Ingleswood City School District. The auditing of accounts occupied the remainder of the morning and afternoon session of the board, at which all the Supervisors were present.

COURTHOUSE NOTES.
BREVITIES MISCELLANEOUS.
WOMAN'S CHARGE. Asking \$25,000 damages for an alleged malicious arrest, Miss Grace Gillis yesterday filed in the Superior Court a suit against Mrs. Mable M. Folts and E. M. Crail who, she says, made such false reports about her to the police that she was arrested and confined in the City Jail.

on January 21, and temporarily lost her mind because of her experience. The charges that she was restrained by force from telephoning to her brother, her only friend in Los Angeles, and that since her release she is utterly unable to get employment here because of the injury to her reputation.

ASKS PROBATE. Z. N. Lowman, husband of Mrs. Katherine Lowman, who died in Los Angeles, October 28,

leaving an \$8000 estate, yesterday filed in the Superior Court his petition to be appointed administrator. The heirs were Mr. Lowman, a daughter, Miss Rose Lowman, and two sons, K. B. Summerfield and J. W. Summerfield.

INTEREST WANTED. Asking that the court grant him a quarter interest in the \$40,000 estate of his aunt, Mrs. Marie Gugoia, who died in Switzerland, January 1, 1907. Emil Gugoia re-

erday filed a petition in the Superior Court. He says that his relative had agreed to leave him a quarter interest in consideration of his refusal to op-

Prices on Silk Hose Drop

Whenever goods approach anything resembling the remnant stage here, they're quickly closed out, so that stocks may be always fresh and perfect. Today's news is of silk hosiery—rare bargains. Indeed:

\$1.50 silk hose, in black, white and colors, all sizes	\$1
\$2 silk hose, in black, color, no black, no white	\$1.50

And in silk hosiery to match gown shades, we're splendidly stocked—day's, coral, Copenhagen, cardinal, burgundy, wine and all other shades to contrast or harmonize with dainty frocks and shoes.

Don't fancy for a moment that your needs for every-day staple hosiery for women and children, can't be equally well supplied, too; prices begin at 25c a pair, for extraordinarily good qualities, in several weights and textures.

Lining Silks, Lower

Here is a clearance of the odd pieces of lining silks that will accumulate in a busy store:

Lengths of 4½ to 12 and 15 yards in all colors of 15-inch lining silk, together with white, but no black; we guarantee their wearing qualities; all marked at one special price.....40c

In another group we've gathered together a large variety of different sorts of high grade linings—Gilbert's Pres de Soie, taffetas, good percales, imitation shadow silks and other kinds: a good shade range is shown, with white and cream—no black—values all the way from 25c to 40c a yard, on special sale at20c

INQUIRY. THE SANTA FE FIRST VICTIM.

Examination of Books to Be
Begun Today.

Commissioners Confer Here
About Rebating.

Salt Lake and Espee in Line
for Grilling.

That active investigation of the alleged railroad rebating cases in this section will be begun at once by the local Federal officials is confidently predicted. The visit of Special Agent H. E. Duncan of the Department of Justice, yesterday, is regarded as significant. He was closeted with United States District Judge Oscar L. Sawyer during the day and left last night for the north. Mr. Duncan stated that his report would be made directly to Atty.-Gen. Bonaparte and that he was unable to give out any information regarding local prosecutions. Mr. Sawyer was unusually communicative.

According to a dispatch from San Francisco, any rebating committed in that district will be prosecuted by the San Francisco office, while offenses committed in the South will fall within the jurisdiction of the Federal Court at Los Angeles.

There is no reason for believing that the prosecution will be confined to cases against any one railroad. It is possible that all corporations believed to be guilty of violations of the Elkins Act will be interrogated.

It is asserted that cases may be presented to the grand jury of this district within a few weeks regarding alleged rebating on the part of the Santa Fe, Salt Lake and Southern Pacific roads.

There were a large number of corporations involved in the report to the Attorney-General, Mr. Sawyer stated.

"It lies with him to state what steps shall be taken in this district, which has jurisdiction in cases of traffic passing through it."

Advices from San Francisco state that, acting under the recommendation of Franklin K. Lane of the Interstate Commerce Commission, the Southern Pacific Company will be prosecuted for alleged rebating by the United States attorney in each district in which offenses were committed.

AWAITING INSTRUCTIONS.
Assistant United States Dist. Atty. Alfred Black has announced that as soon as instructions come from Atty.-Gen. Bonaparte, the cases against the Harriman lines will be proceeded with.

A. C. Irwin of Sacramento and H. D. Loveland of San Francisco, members of the State Railroad Commission, arrived in this city yesterday morning and held a conference with Theodore Summerland, the local member of the board, and Raymond Benjamin, Deputy Attorney-General of the State.

The topic discussed was the investigation of alleged rebating by the Santa Fe and the Salt Lake railroads. Officials of those lines agreed to furnish all the assistance in their power.

SANTA FE'S BOOKS FIRST.
This morning the work of looking over the books of the Santa Fe Company will be begun, under Deputy Attorney-General Benjamin.

The commissioners will remain in the city only a few days. The members from the North stated last night that as far as further official business was concerned, they could return home immediately.

"We had at first planned to hold our investigation in the North, but determined that it was better to come to this city than to assemble the thousand and one books and witnesses elsewhere," said Mr. Irwin. "The officials of the Santa Fe Road went so far as to offer us desk room in their office building during our investigation."

Mr. Benjamin will remain here indefinitely and will gather all data possible relating to rebates and discrimination within the State. I understand that the plan is to have this data sifted out before the commission convenes here again. Mr. Benjamin has had considerable experience in this line and I think that his work will be exhaustive. After the Santa Fe, the Salt Lake will be investigated."

Mr. Irwin said that the presence in the city of H. E. Duncan of the Department of Justice had no connection with the business of the railroad commission.

UNIVERSITY ACTIVITIES.
Two New Lecture Courses Are inaugurated and Official Organ Is Revived.

Two courses of lectures on topics of general interest have been inaugurated under the auspices of the University of Southern California, and will be conducted for the benefit of students and the public.

A series of stereoscopic lectures dealing with the leading foreign countries will begin Friday afternoon at 2 o'clock, with an illustrated talk on Norway. Prof. B. R. Baumgardt is conducting the course. He will give five additional lectures on succeeding Fridays.

A second course, of especial interest to Bible students, is in progress, under the direction of the McElroy College of Theology. Dr. Robert McIntyre of the First Methodist Church is the lecturer in charge. He has opened a course on homiletics, with subjects as follows: "The Preacher," "The Preacher's Methods," "The Preacher's Experience," "The Preacher's Rewards." These lectures are given Tuesday afternoon in the assembly room of the main building.

The department of theology has been greatly extended during the past semester, and courses are now given in additional essential subjects. Courses in Hebrew are under Rev. James Blackledge; Dr. Eli McClellan takes the subject of Christian Evidences, and the English Bible studies will be continued by Prof. J. G. Hill. Dean Healy, besides his English work, will conduct classes in historical and systematic theology. Ethics will be in charge of Prof. Hill. Later it is planned to have New Testament Greek under Prof. Festus Owen.

The University Courier, official organ of the student body, recently has been reorganized on a substantial basis. It is the purpose to make it a truly university sheet, publishing news from the united colleges. A board of control elected from the student body has general supervision. The staff includes J. Hudson Ballard, editor-in-chief; Mark M. Horton and W. J. Schwartz, assistant editors; Jennie M. Dick, Clyde Collier, Guy W. Buckmaster, Fred Prince, Jr., and Edith M. Myers, department editors; Walter C. Bridwell, business manager, with D. E. Crall and Henry Butler as advertising and subscription managers. George Runyon is chairman and Ethel Hogan secretary, of the board of control.

'PHONE MEN UNDER FIRE

(Continued From First Page.)

counts amounting to more than \$27,000,000.

At the examination proceeded, the San Francisco firm proved to be a haven of refuge of the company's auditor when hard beset. Pressed for details, he would reply that the records were burned in the big fire.

BARES SECRET HISTORY.
Mr. Sherwin laid bare the secret history of the Pacific company with perfect candor. He said that the totals were secured from Boston where the records of the company are reviewed by the American Telephone Company.

He said that the American Telephone Company owns 51 per cent. of the capital stock of the Pacific Telephone Company.

It was at this point that Vice-President Bradley interposed and asked that the examination be postponed until his company can be represented by its attorneys.

"The examination has taken a turn that we did not at all expect," said Mr. Bradley. "We came here to answer questions as to the actual value of our investment in Los Angeles. We are being tricked by your attorneys into giving inside history to the organization capital stock, etc. of the company."

Mr. Bradley had noted that the Council has secured the services of a court stenographer to take all the testimony and make it a matter of record.

City Attorney Hewitt resembled the term "tricked" used by Mr. Bradley. He said his office is striving only to lay before the Council the facts regarding the Pacific Telephone Company's investment in Los Angeles.

"You have testified that your estimate of \$4,500,000 is an arbitrary one based upon your engineering at 15 per cent. of the capital stock of your company," he said. "Naturally we have sought to find what actual investment that capital stock represents."

Mr. Bradley testified under oath that to the best of his knowledge and belief, the \$3,900,000 capital stock represents an actual investment of \$3,900,000 in cash. But when pressed for detailed statements he said that the figures were a part of the records burned in the big fire.

EXPLAINING A DISCREPANCY.
Mr. Bradley said that the actual investment of the Pacific Telephone Company and its predecessors in Los Angeles totals more than \$6,000,000. He explained the discrepancy between the statements to the assessor and to the Council by saying they are made by different departments. "The statement to the Assessor," he said, "represents the actual value of the material in use here at a forced sale for material only; the statement to the Council represents our actual investment in Los Angeles."

Plainly the company is between two fires; the Assessor uses the statements made to the Council for rates and the Council makes use of the statements to the Assessor for assessment purposes.

Mr. Bradley suggested for a second time that the attorneys for his company should be present at the hearing. "I came here supposing I should be asked to make a statement of the actual investment of our company in Los Angeles," he said. "I believed I should be among friends. Now I find the hearing partaking of the nature of a court proceeding; it is not fair to us. We are examined on something that does not relate to Los Angeles. We have made a statement of the phones and other material in use here and of our actual investments. I fail to see what more you require."

WILLING TO PUT OVER.
City Attorney Hewitt said that he was willing that the hearing should be postponed until the company could be represented by attorneys. He said that the present examination will probably be continued in court, and he desires that the company shall receive every opportunity to present its case.

"I desire it to be understood," said Councilman Wallace at this juncture, "that the Council wants exactly what Mr. Bradley wants."

An involuntary "written" went up from the lobby, but Wallace went on to explain. "I mean we desire that the company shall have every opportunity to present its side of the case, to be represented by attorney or not as it desires. Then when the evidence is all in we shall draw our own conclusions."

Mr. Bradley concluded that his attorney might help some, so the Council adjourned the hearing until Tuesday of next week. The case of the Home Telephone Company was called.

The attorneys for this company were very desirous that it should not interfere with the hearing of the Pacific company's case; the Home company would be ready for its hearing next Tuesday, but it really couldn't do it itself before then.

Right here it developed that politics is to play a part in fixing the telephone rates. The Non-Partisans are lined up to have the Home company protected and the Republicans are looking after the interests of the Pacific Telephone Company. The Republicans scored a partial victory in that the case of the Home company will be called next Monday afternoon, and that of the Pacific company on next Tuesday morning.

President Cass and other officers of the Home Telephone Company followed closely the examination of their rival. President Cass said to members of the Council while the hearing was in progress that the vice-president of the Pacific company spoke only fact when he said that company has invested \$6,000,000 here.

VALENTINE BALL.
A charming affair was the Valentine ball given at the Cambria Union. Festoons of red hearts and pepper berries decorated the ballroom, and quantities of fragrant violets canopied the buffet, from which punch was served. Bacon's Orchestra furnished the music. There was a large attendance.

Quiet at Fairbanks.
WASHINGTON, Feb. 17.—Conditions at Fairbanks, Alaska, where the Western Federation of Miners is alleged to have been deporting non-union men, were reported to the War Department today as "quiet." The report, made by telegraph by the commander of the Department of the Columbia, adds: "The saloons have reopened."

FRANTIC WOMEN

Organic disturbances of the female system act like a firebrand on the nerves of women, often driving them fairly frantic.

A nervous, irritable woman is a source of misery not only to herself but to all those who come under her influence. That such conditions can be entirely overcome by taking

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

is proven by the following letters:

Mrs. Mary Wood, of Christiansburg, Tenn., writes to Mrs. Pinkham:

"I had the worst form of female troubles and my nerves were all torn to pieces; sometimes I suffered so much that it seemed as though I could not live."

"I began to take Lydia E. Pinkham's Vegetable Compound and now I feel like a different person. Your medicine is worth its weight in gold, and I cannot say enough for your advice."

Mrs. Wallace Wilson, Thompsonville, Conn., writes to Mrs. Pinkham:

"I was all run down, nervous, and could not rest nights. Doctors failed to help me. Lydia E. Pinkham's Vegetable Compound restored me to perfect health."

FACTS FOR SICK WOMEN.
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, etc. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

SOCIAL MASQUERADER.
(Continued From First Page.)

brokers nervous prostration by dropping in the most casual, off-hand way, an order for an immense block of stock.

THE CLIMAX.
When she came back here a few weeks ago, she met some one on the street whom she met while she was parading as Lady MacKenzie. She showed not the slightest embarrassment at her complication of titles. She said she was so well known under her own name she had to take Lady MacKenzie's name to keep the public away.

Although she now denies it, she stated plainly that she wrote the "Lady of the Decoration." It is one of the cleverest books of its kind that has been written for years. Naturally she made a sensation.

Only once did she lose her iron nerve. One day she made an address at a convention of teachers at the Normal School. Her subject was "The Games of Children in Different Parts of the World."

Right in the middle of it, her eye fell upon a lady in the front row. It was one of the women she had "worked" to a finish as Lady MacKenzie. Caroline for once wilted. She stammered and stammered and bumped her speech to a close, asking if anybody had any questions to ask; she would answer them. And when the questions came, she answered so absently that every one was amazed.

Afterward she flew like a tiger at the woman on the front row. "How dared you come over here to see me?" she demanded.

Caroline is at liberty now. The hotel case was dismissed for lack of evidence. For four solid hours the detectives tried to write something from Caroline. She gave them her famous steady glare and they found out—just what she wanted them to.

The astonishing thing about the woman is that she is rather unattractive. She is small and weazened and homely. Her face is drawn with nervous intensity.

San Bernardino County Tragedy Shows That If the Man Slain Had Been Quicker With His Knife, Which Was Found Upon the Result Would Have Been Different.

INSECT MAKES AUTO FLIP.
Machine Turns a Complete Somersault and Lands Upright.
[SPECIAL CORRESPONDENCE.]
SANTA ANA, Feb. 17.—When speeding along Prospect avenue at thirty miles an hour, yesterday evening, G. M. Fuller, a chauffeur, lost control of his machine, and the automobile turned a complete somersault in the air, and landed upright. The five occupants of the automobile were thrown out. Two of the chauffeur's ribs were fractured, while the members of the party he was driving escaped with minor bruises, scratches and sprains.

Safe Cures for Men
When weakness grows upon you until you realize that you must have medical help, you should study carefully the kind of treatment you need. The ordinary physician, not experienced in treating the weakness of men, is too quick to resort to strong stimulants for the general nervous system. These seem to help, but the reaction soon follows, and your case is really worse than before. Most of my patients come to me with just such a history. They are skeptical and disheartened until I demonstrate to them that my direct local treatment rights the wrong which causes the weakness, and then Nature restores the strength. I am the only specialist that knows or uses this method. I have used it successfully for twenty-five years. Try it at my risk and

COME AND BE CURED
IF ILL OR SUFFERING
After years of travel and research in the mystic land of the East, there comes to this city medical men, in fact, as well as names. No questions are asked you but you are told your troubles at once. Likewise the secret remedies used for many centuries by the medical men of the Orient are now to be introduced for the first time.

I Cure Men
In all my work I am thorough, painstaking and careful to give just the right treatment required in each individual case. For 20 years I have been proving my ability, and my business methods have always been strictly reliable. My unqualified success is due to a thorough medical education, supplemented by years of experience in men's special diseases only. My treatment is as correct as modern science can make it. Others may offer inducements such as cheap treatment or quick treatment, but I guarantee claim is for thoroughness, which in the long run—in EVERY CASE—means the cheapest and the best.

Men's Diseases
